

Features & Benefits

- ✓ Low profile construction with an elegant design
- ✓ Suited for recess and surface mounting
- ✓ Light output equivalent to 20W halogen light
- ✓ Sustainable and energy-efficient LED
- ✓ Wide range of DC operating voltage (11-30V)
- ✓ IP64 rated and suitable for bathroom use

Applications

- ✓ general lighting for small spaces
- ✓ accent lighting and under cabinet lighting
- ✓ ceiling and furniture lighting
- ✓ lighting for yachts, caravans & RUV's

Space

The Eyeleds Space is an exceptional alternative for traditional 20W halogen lighting. The fixture has an overall height of only 12mm! Low profile construction is achieved with using state of the art LED technology. The Space is powered by a 6W LED with wide beam distribution making this product suitable for general lighting applications.

The aluminum housing provides an optimal heatsink and guarantees an extremely long lifespan. The Space operates on 11 to 30V DC and can easily be connected to 12 or 24V battery power in yachts, caravans and RUVs.

The Space is easy to install, and can be used as a surface or recess mounted luminaire for ceilings, walls, kitchens and furniture. The IP64 rating allows for protection against dust and water making this product well suited for damp locations such as bathrooms.

High end materials and a modern design make the Eyeleds Space a stylish and sustainable lighting solution, both in residential and commercial applications.

Specifications

Lumen Output

Cool White LED	290 lm
Warm White LED	235 lm

Power Consumption	6W
--------------------------	----

Efficacy

Cool White LED	48 lm/W
Warm White LED	39 lm/W

Color Temperature

Cool White LED	6500K
Warm White LED	3000K

Beam Angle	150°
-------------------	------

Rated Life	up to 100.000 Hours
-------------------	---------------------

Materials

Lens	Polycarbonate
------	---------------

Housing	Aluminum (Anodized)
---------	---------------------

Fixture Color(s)	Aluminum Matte (Optional White)
-------------------------	---------------------------------

Surface Temperature	Max. 50°C
----------------------------	-----------

Operating Temperature	-10°C to +50°C
------------------------------	----------------

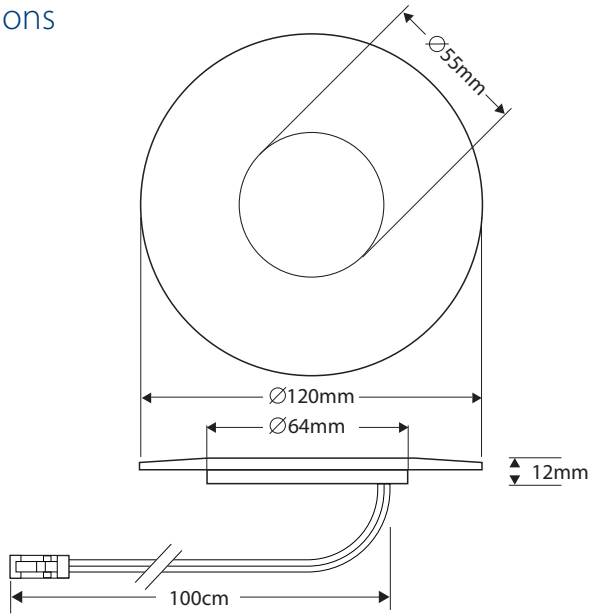

Voltage	11-30V DC
----------------	-----------

Warranty	3 Years Limited
-----------------	-----------------

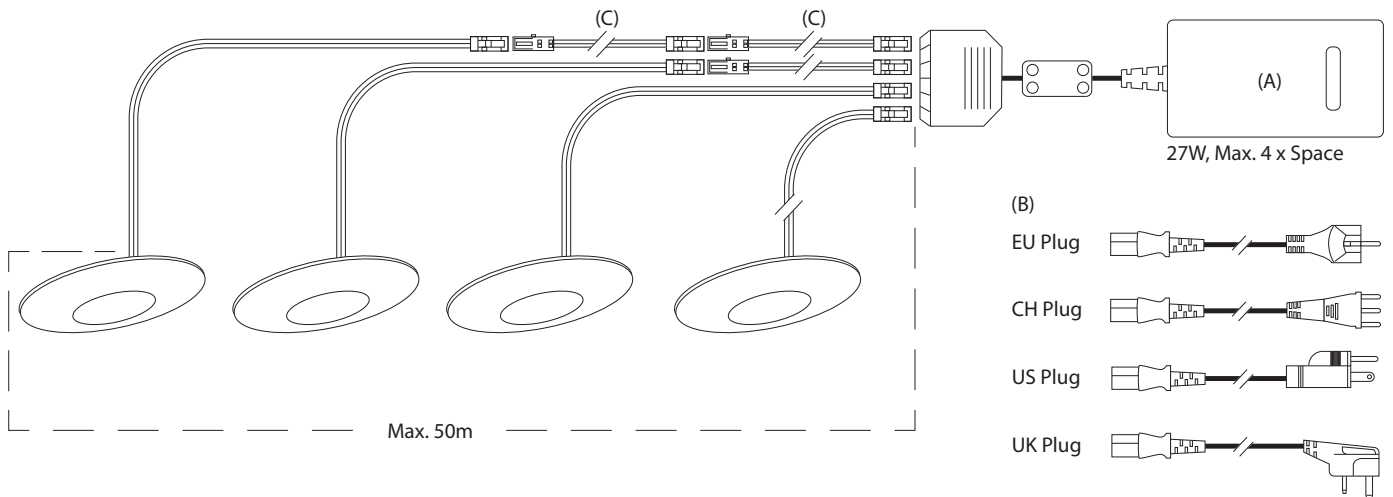

Standards	CE
------------------	-----------

Environment	IP64, indoor application only
--------------------	-------------------------------
